Result of examination:

This report supplements the FBI Laboratory reports in this case dated June 2, 1994 and September 14, 1994 and completes the requested examinations. Please refer to those reports for a listing of the previously submitted items.

DNA ANALYSIS:

Deoxyribonucleic acid (DNA) profiles for genetic loci D2S44, D17S79, D1S7, D4S139, D10S28 and D5S110 were developed from HAE III digested high molecular weight DNA extracted from specimens K2 and K16. No DNA profiles were developed from specimen Q6 due to degraded and/or insufficient high molecular weight DNA; therefore, no comparisons could be made to the known sample of the suspect.

Inasmuch as no DNA profiles were developed from specimen Q6, no analyses of specimens K18, K19 or K21 were conducted.

MICROSCOPIC ANALYSIS:

Debris removed from certain items of clothing submitted from the victims, (specimens Q6, Q7, Q10 through Q12, Q14 and Q17, FBI Laboratory report dated September 14, 1994 (Laboratory Numbers 40131017 S WP AN, 40317036 S WP AN, 40519001 S WP AN) was examined for the presence of [REDACTED]

b3
b6
b7C

It is pointed out that head hair samples from the victims were not submitted to the FBI Laboratory.

DISPOSITION OF EVIDENCE:

In addition to the evidence in this case, the remaining processed DNA from specimens examined by DNA analysis is also being returned under separate cover by registered mail. The processed DNA can be found in a package marked "PROCESSED DNA SAMPLES: SHOULD BE REFRIGERATED/FROZEN." It is recommended that these samples be stored in a refrigerator/freezer and isolated from evidence that has not been examined.

TAPE BE REMADE TO INFORM THE PUBLIC THAT A NEW INVESTIGATION HAS BEEN INITIATED BY THE FBI. THIS CURRENT INVESTIGATION HAS REVEALED THAT THERE APPEARS TO BE A COVER-UP IN THE DEATHS OF THESE BOYS. IT IS REQUESTED THAT THE JANUARY 15, 1995, AIRING OF "UNSOLVED MYSTERIES" REGARDING CAPTIONED SUBJECTS NOT BE AIRED WITH THE PAST INACCURATE INFORMATION.

FOR INFORMATION OF FBIHQ AND THE OFFICE OF PUBLIC AFFAIRS, LITTLE ROCK BEGAN AN INVESTIGATION ON CAPTIONED CASE ON DECEMBER 15, 1993, AT THE REQUEST OF SHERIFF JUDY PRIDGEN, SALINE COUNTY SHERIFF'S DEPARTMENT, BENTON, ARKANSAS.

THE FIRST STEP IN THE FBI INVESTIGATION WAS A TOTAL REVIEW OF ALL PRIDP INVESTIGATIONS, TO INCLUDE GRAND JURY MATERIAL, THE ARKANSAS STATE POLICE INVESTIGATION, AND SALINE COUNTY SHERIFF'S OFFICE INVESTIGATION, PLUS A TOTAL REVIEW OF ALL VIDEOTAPES, TO INCLUDE THE "UNSOLVED MYSTERIES" TAPE WHICH WAS MADE SHORTLY AFTER THE VICTIMS' DEATHS.

AFTER NUMEROUS FBI INTERVIEWS AND NUMEROUS POLYGRAPHS, THE FBI INVESTIGATION HAS REVEALED NEW INFORMATION.

IT IS BELIEVED THE VICTIMS' DEATHS OCCURRED AS THEY ATTEMPTED TO BREAK INTO THE RESIDENCE OF A [REDACTED]

[REDACTED] FOR THE PURPOSE OF STEALING COCAINE. THE VICTIMS

b6
b7c

PAGE THREE DE FBILR 0003 UNCLAS

WERE CAUGHT IN THE RESIDENCE AND WERE ALLEGEDLY ORDERED TO BE TAUGHT A LESSON. ONE VICTIM WAS ACCIDENTALLY KILLED, AND SOMETHING HAD TO BE DONE WITH THE OTHER.

[REDACTED] IN SALINE COUNTY, IS BELIEVED TO HAVE BOUGHT PROTECTION FROM LAW ENFORCEMENT AUTHORITIES.

b6
b7C

DURING THE INVESTIGATION OF THE DEATHS OF THE VICTIMS, IT WAS DISCOVERED THAT A MAJOR DRUG TRAFFICKING NETWORK EXISTED IN SALINE COUNTY. THIS DRUG TRAFFICKING RING NOT ONLY INCLUDED [REDACTED] BUT ALSO OTHER INDIVIDUALS IN THE COMMUNITY, TO INCLUDE [REDACTED]

b6
b7C

[REDACTED] WAS IMPLICATED AS BEING INVOLVED IN THE VICTIMS' DEATHS BY NUMEROUS INDIVIDUALS, WHO WERE INTERVIEWED AND POLYGRAPHED.

ON DECEMBER 15, 1994, [REDACTED] WAS SUBPOENAED INTO THE LITTLE ROCK OFFICE FOR [REDACTED]

[REDACTED] THEY WILL BE COMPARED AGAINST EVIDENCE WHICH WAS FOUND ON THE VICTIMS' CLOTHING AND RIFLE BY THE FBI LABORATORY. [REDACTED]

A hand-drawn diagram of a 3D cube. The vertices are labeled as follows: the top-left-front vertex is 'H', the top-right-back vertex is 'B', the bottom-left-back vertex is 'B', the bottom-right-back vertex is 'G', the bottom-right-front vertex is 'H', and the bottom-left-front vertex is '21-1'. There are also some additional marks, including a small 'H' at the top center and a small 'B' at the top right.

The image shows two identical groups of 10 objects. Each group consists of 3 objects in the top row, 2 objects in the middle row, and 5 objects in the bottom row, totaling 10 objects per group.

A 3x3 grid of circles. The top-left circle is missing, leaving 8 circles in total.

The image shows three diagrams illustrating the arrangement of particles in different states of matter:

- Solid:** Particles are arranged in a regular, repeating pattern, representing a crystalline structure.
- Liquid:** Particles are arranged in a disordered, irregular pattern, representing a liquid state.
- Gas:** Particles are widely spaced and arranged in a disordered, irregular pattern, representing a gaseous state.

The image contains three separate diagrams, each showing a collection of small circles representing particles. The first diagram on the left shows particles packed closely together in a regular, repeating pattern, representing a solid. The middle diagram shows particles packed closely together but in a disordered, irregular arrangement, representing a liquid. The third diagram on the right shows particles that are widely spaced and scattered throughout the area, representing a gas.

REQUEST OF THE BUREAULABORATORY DIVISION - HAIR AND FIBER UNIT

Is requested to examine the enclosed shirt and piece of material, possibly a portion of a tarp, for fibers that may match the fibers on a bayonet, previously submitted by Little Rock.

Enclosed for the FBI Laboratory, Hair and Fiber Unit, is a men's Nike t-shirt, size small and a piece of soiled light green colored material, possibly a piece of a tarp.

40519001 S WP AN**

No hairs or fibers were detected on specimens Q3 through Q5 and Q9.

Human hairs exhibiting Caucasian racial characteristics were found on items of evidence submitted and have been preserved on glass microscope slides and pillboxes for possible future comparisons.

Miscellaneous textile fibers removed from specimens Q6 through Q8 and Q10 through Q22 have been preserved for possible future comparisons.

The Q16 cap has a one inch chevron shaped cut through the foam portion. This cut appears to have been made by a sharp instrument, however, no determination could be made as to the type of instrument used to make the cut. No determination could be made regarding the cause of the other damaged areas present to the Q16 cap.

items received packaged in sealed cardboard box

- Q3 received in what appears to be a sealed PVC pipe -
- brown leather sheath - worn - used
- silver metal scabbard and dagger - the total length of the dagger is approximately $20\frac{1}{2}$ inches long with the blade approximately $15\frac{1}{2}$ inches long and approximately 1 inch wide - dagger appears to be blood stained - "Weyersberg Kirschbaum & Co Solingen Modelo Argentino 1891/A4345" - photographed
- Q4 in sealed brown paper bag inside of a sealed brown paper bag - knife with a silver metal serrated blade with a black handle with a compass inside of a black leather sheath with a sharpening tool and a piece of cord attached to one end - the knife is approximately 11 inches long with the blade approximately $5\frac{3}{8}$ inches long and $1\frac{1}{4}$ inches wide - "420 Stainless Taiwan" - photographed
- Q5 in sealed brown paper bag - inside sealed manila envelope inside an unsealed clear plastic bag - knife with silver metal serrated blade with a black handle - blade appears to be coated

40131017 S W P A N

black and is very rusty - the total length of the knife is approximately $10 \frac{1}{2}$ inches long with the blade approximately $5 \frac{3}{8}$ inches long and $1 \frac{1}{4}$ inches wide - "Taiwan - photographed

- Q6 in sealed clear plastic bag - pair of white brief style underwear - "BVD" on waistband - heavily soiled and stained - ripped below waistband in back and in crotch area
- Q7 in sealed clear plastic bag - 3 pieces of underwear which are ripped apart - two of the pieces have yellow and blue stripes on the waistband - heavily soiled and stained - possible fecal matter
- Q8 in sealed plastic bag - portion of what appears to be a dark green shirt - has 2 buttonholes and a breast pocket with a buttonhole in tact - heavily soiled
- Q9 Received unsealed inside the sealed cardboard box - 6 pieces of a .22 caliber rifle which include the receiver, the scope, the trigger guard, the forearm, the stock, and piece of wood probably from the stock - photographed

Enclosed for FBI Laboratory are the following items:

- Q3 (1) One metal-type bayonet
- Q4 (2) One survival knife with a compass
- Q5 (3) One survival knife without a compass
- Q6 (4) Two pairs of boy's underwear
- Q8 (5) One piece of green cloth

} B, H, L, F
B, H, F

For information of FBI Laboratory, captioned victims were found in the early morning hours of August 23, 1987, after they had been run over by a UNION PACIFIC train.

Initial autopsy reports indicate that the boys had fallen asleep in a marijuana-induced sleep. A second autopsy report discovered that KEVIN IVES had been violently beaten in the head and DON HENRY had been stabbed in the back before being hit by the train.

An individual by the name of [redacted] turned in a bayonet to Saline County Sheriff's Office. [redacted] claimed that this was the murder weapon utilized in captioned incident.

b6
b7c

A [redacted] also turned in two knives to Saline County Sheriff's Department. It was also alleged that these knives were utilized in captioned incident.

40317036 S WIP AN

items received packaged in sealed cardboard box

Q10 in sealed clear plastic bag - pair of blue jeans - heavily soiled - ripped apart on both legs, in back and in crotch area - hospital cut (?) along both side seams - "Levi's ; W29 L30"

Q11 in unsealed torn plastic bag - packaged inside of plastic bag with Q10 - blue tank top - worn - heavily soiled - "Ocean Pacific" printed on left front side - ripping on left shoulder - "O.P., M, 50% cotton 50% polyester"

Q12 in sealed plastic bag - pair of blue jeans - ripped into several pieces - heavily soiled - "Levi's"

Q13 in sealed clear ziplock bag - faded blue jean jacket - worn - heavily soiled - live shot shell cartridge removed from left breast pocket and placed in ziplock bag - "Levi's ; Size 46"

Q14 - Q15 packaged together in sealed plastic bag; wrapped together

4031 7036 SKPAN

- Q14-Q15 Pair of white ankle socks - heavily soiled - "Nike" printed in navy at top
Q14 - completely ripped apart
Q15 - ripped apart in 2 places
- Q16 In sealed plastic bag - camouflage baseball cap - "LRE Little Rock Electrical Contractors" printed on front with emblem - ripped apart on left side and in back - heavily soiled - "Speedway; one size fits all" - "That Place; Sick Screen Advertising; 2621 Fir; Pine Bluff, AR 71603; Phone: (501) 535-0265"
- Q17-Q18 Packaged together in sealed plastic bag - scraped together - pair of white "Reebok" tennis shoes - heavily soiled - worn - blood (?) stained - top portion of right shoe has been ripped away from sole. "9 1/2"
- Q19-Q20 Packaged together in sealed plastic bag - scraped together - pair of white "Reebok" tennis shoes - both ripped apart - heavily soiled - "9 1/2"

Notes

40317036 S W P IN

Q16 CUT/DAMAGE EXAMINATION:

* Directional references are made as if hat is being worn

1. - bill is torn at seam from midline to left side

2. - w/ 1"  shaped sharp cut 2" to the front/left of top button

this cut penetrates through foam at apex

3. - several large one to three inch tears/holes in the irregular material in the mesh of left side.

4. - tear in mesh at center to back of cap.

5. - elastic adjustment strip is severely flattened & distorted with multiple longitudinal marks/scratches

SUMMARY

all of above (except #2) cut appears to be the result of trauma consistent with tearing/crushing with heavy object.

#2 cut appears to be made from a sharp instrument

Q21 T-shirt

Q22 Green material

Result of examination:

This report supplements the FBI Laboratory report in this case dated June 2, 1994 and completes the requested examinations. Please refer to that report for a listing of the previously submitted items.

Grouping tests conducted on the human blood identified on Q21 were inconclusive. No blood was identified on Q22.

No semen was identified on Q21 or Q22.

MAILED 20

SEP 16 1994

31

166C-LR-35380-11

A sample of the bloodstain identified on Q21 has been removed and will be returned with the submitted items.

No hairs or fibers were detected on specimens Q3 through Q5 and Q9.

Human hairs exhibiting Caucasian racial characteristics were found on items of evidence and have been preserved on glass microscope slides and pillboxes for possible future comparisons.

Miscellaneous textile fibers removed from specimens Q6 through Q8 and Q10 through Q22 have been preserved for possible future comparisons.

The Q16 cap has a one inch chevron shaped cut through the foam portion. This cut appears to have been made by a sharp instrument, however, no determination could be made as to the type of instrument used to make the cut. No determination could be made regarding the cause of the other damaged areas present to the Q16 cap.

The submitted items along with photographs taken of Q3, Q4, Q5 and Q9 will be returned to the Little Rock Division under separate cover by registered mail.

Please call Examiner [REDACTED] (202) 324-4364, if you have any questions concerning the results of examinations in this case.

REQUEST OF FBI LABORATORY

It is requested that the FBI Laboratory examine the enclosed weapons for any tissue or blood remaining on said weapons. It is further requested that enclosed underwear be examined to determine if the blood types or DNA match that of any blood that may be found on the knives or bayonet.

Also requested is examination of enclosed cloth for determination of the substance on the cloth.

After Serology Laboratory has completed the testing of enclosed weapons, it is requested that the weapons be sent to Latent Fingerprint Laboratory for examination of any existing fingerprints.

EARLY MORNING HOURS OF AUGUST 23, 1987, THE VICTIMS WERE RUN OVER BY A UNION PACIFIC TRAIN.

THE DEATHS WERE IMMEDIATELY RULED ACCIDENTAL BY ARKANSAS STATE MEDICAL EXAMINER DR. FAHMY MALAK. DR. MALAK STATED THE CAUSE OF DEATH AS ACCIDENTAL. IT WAS FURTHER STATED THAT THE VICTIMS WERE IN A MARIJUANA-INDUCED SLEEP AT THE TIME THEY WERE RUN OVER BY THE TRAIN.

DUE TO MUCH CONTROVERSY OVER DR. MALAK'S RULING, A PRIVATE MEDICAL EXAMINER, DR. JOSEPH BURTON, WAS CONTACTED REGARDING A SECOND AUTOPSY REPORT.

PIECES OF EVIDENCE FROM CAPTIONED CASE WERE ALSO TURNED OVER TO DR. JOSEPH BURTON, TO INCLUDE A SHIRT WORN BY DON HENRY.

ATLANTA AT DECATUR, GEORGIA: CONTACT DR. JOSEPH BURTON (APPOINTMENTS MADE THROUGH DR. BURTON'S SECRETARY, [REDACTED],

REQUEST OF INVESTIGATIVE SUPPORT UNIT

After watching the videotape, it is requested that individuals' statements be analyzed for any possible insight into the case.

Enclosed for Investigative Support Unit is one copy of a videotape of "Unsolved Mysteries." Featured in this videotape are captioned victims, who had been run over by a UNION PACIFIC train.

For information of Investigative Support Unit, captioned case is a highly publicized incident which occurred on August 23, 1987, where two teenagers were killed on a railroad track in Saline County, Arkansas. It has been investigated by Saline County authorities, the Arkansas State Police, and has received assistance from the FBI Laboratory.

At 4:30 a.m. on August 23, 1987, units were dispatched to the railroad tracks for a Code 21. [redacted]

[redacted]

The boys were immediately identified as being dead and transported to the State Medical Examiner's Office.

The initial autopsy report states that KEVIN IVES had a multi-fractured skull with much frothy blood in the airway and lungs. Further cerebral hemorrhage was apparent in the brain tissue of KEVIN IVES.

DON HENRY had much frothy blood in the airway, as well as the lungs, plus a crushed larynx.

Both boys tested positive for marijuana use; negative for alcohol. The cause of death listed on the initial autopsy was death as a result of being in a marijuana-induced sleep and run over by a train.

Later the bodies were exhumed, and a second autopsy revealed that DON HENRY had, indeed, been stabbed in the back and KEVIN IVES had been beaten violently on the head. The cause of death was changed to undetermined.

DON HENRY's shirt was located a short distance from where HENRY was lain. The shirt was determined to have numerous cut marks through the material.

 OO: LITTLE ROCK

Little Rock has initiated an ITAR - Murder for Hire investigation into captioned matter based on the following:

This case is a highly publicized incident which occurred on August 23, 1987, where two teenagers were killed on a railroad track in Saline County, Arkansas. It has been investigated by Saline County authorities, the Arkansas State Police, and has received assistance from the FBI laboratory. It has also received publicity from "Unsolved Mysteries", the nationally syndicated television program. The Division has maintained previous reports of assistance in LR Files 62D-2608 and 62D-LR-35380.

166C-LR-35380-3

As early as May 26, 1988, JOHN W. COLE, the presiding Circuit Judge of Saline County, Arkansas, requested a Federal investigation into captioned matter citing a local Grand Jury's determination that the deaths were a probable homicide and the fact that similar deaths had been reported in

Oklahoma and Missouri. At the time, the Arkansas State Police was investigating the matter and a decision was made to await the outcome of that investigation with the caveat that FBI laboratory and other facilities were available to State officials.

Since that time, the investigation has failed to identify the perpetrators and Saline County officials are baffled that some of the original evidence collected during 1987 is no longer available and that files are missing. On December 16, 1993, Saline County Sheriff JUDY PRIDGEN personally appeared at the Little Rock Office of the FBI and requested an FBI investigation into this matter [REDACTED]

In a 6/15/90 newspaper article written by "Arkansas Democrat Gazette" staff writer DOUG THOMPSON, a JAMES DAVIS CALLAWAY was reported as being implicated in victims' deaths. According to the article, a PAUL WILLIAM CRISWELL, a former employee of CALLAWAY's, was charged with possession of a controlled substance during 1990. CRISWELL's girlfriend informed Saline County officials that CRISWELL had told her that he and another man, who had since died, caught IVES and HENRY trying to steal cocaine from CALLAWAY's home and killed them. The witness also testified that CRISWELL told her that CALLAWAY and CRISWELL's father, FINIS CRISWELL, later took the bodies to the railroad tracks.

Little Rock has also developed a cooperating witness (CW) who has advised that:

At the request of Sheriff PRIDGEN, Saline County,
Little Rock has further taken custody of certain evidence
which was recovered during the local investigation and
forwarded it to the FBI Laboratory for analysis. Little Rock
will continue to coordinate this investigation with the U. S.
Attorney's Office and Sheriff JUDY PRIDGEN. It is also
noteworthy that Little Rock's CW has agreed to meet with
various individuals allegedly involved in this matter and
consensually record his conversations.
